MONEY NEEDED FOR THE COMING YEAR.

We recommend the following amounts be raised for the coming school year, July 1, 1922 to June 30, 1923:

For support of elementary schools, including textbooks, supplies and flags, and for expenses of administration (this amount includes the amount required by law),	\$5,400.00
For salaries of district officers, including truant officer,	130.00
For high school and academy tuition,	800.00
For per capita tax (\$2.00 per pupil),	188.00
Total to be raised,	\$6,518.00

During the current year we have been obliged to maintain one more transportation route than was anticipated. We estimate however, that our present balance will be sufficient to continue the schools for the remainder of the year with the exception of the tuition bill at Kezer, the amount of which we do not yet know.

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

February 17, 1922.

Under the old system of supervision the districts of the union apportioned the superintendent's time among them. Under the law of 1919 they can make no such apportionment as the whole purpose of the law is to equalize school privileges.

I have been interested however, to study how my time has been spent among the several districts. While the superintendent does other work besides visiting schools, that part of his work is easiest to record and may form a fairly satisfactory basis for estimating how his entire time has been apportioned. The following table is for the two and one-half years of the existence of the supervisory union:

DISTRICT.	Number of teachers.	Year 1919-20.	Year 1920-21.	Half year 1921-22.	Total.	Average per teacher.
Penacook	17	180	186	135	501	29
Boscawen	3	32	33	26	91	30
Canterbury.....	4	31	34	31	96	24
Loudon (For 2 years).....	8	58	67	43	168	22
" (For $\frac{1}{2}$ year).....	7					
Salisbury (For 1 year).....	5	43	28	24	95	26
" (For $1\frac{1}{2}$ years).....	3					
Total		344	348	259	951	26

To equalize the results of the superintendent's work we may say that roughly the average visits per teacher should be about the same for the various districts. By this standard the table would indicate that Loudon has suffered somewhat, Canterbury slightly, and that Bosca-wen and Penacook have received somewhat more than their share of the superintendent's attention.

If the *time spent* in a town while visiting schools should be considered, the comparative compactness of the several districts enters into the problem. By such a standard, Penacook would seem to be the neglected district and Loudon would not be below the average. The table also roughly indicates the increasing time available for school room visiting now that the pioneer work in organization has been accomplished and the secretary is held responsible for a great amount of the office work.

During the school year of 1920-21 I also visited Kezer Seminary and sustained the same relation to this school as to the public schools, certifying its graduates to high school at the close of the year. It was discovered that our supposed authorization for this work was based upon a misunderstanding of the policy of the state board of education and I have withdrawn from any official connection with that school.

The schools opened last September with two new teachers and at the Uplands there have been three different teachers this year. It is somewhat easier than last year to find teachers, but finding and keeping good teachers for remote country schools is still a hard task.

During the year since the last report was written, school buildings have been improved as follows:

The Center school has been shingled on one side.

The lighting at the Carter school has been improved by moving one window. A window has been placed in

the boys' toilet, and the entire main building has been shingled.

At the Uplands school the seats have been turned to face in the opposite direction and the windows in front of the pupils are covered with blackboards. The ceiling has been painted white.

The shed and boys' toilet at the Center are still in bad condition.

As to the curriculum—we are continuing to teach and to drill on reading, writing, arithmetic and spelling. In History, we have added the study of Ancient History and English History in a simple form for intermediate grades. In Physiology less anatomy is taught and more pains are being taken to instill habits which tend towards a healthful life. We have one graduate from last year's eighth grade who is doing a little advanced work in Latin, Algebra and History.

In Grammar and Arithmetic a variety of texts have been in use and should continue to be in use. A single textbook has been adopted however, in each of these subjects, which is chosen whenever new books need to be purchased.

Respectfully,

GEO. W. SUMNER.
